Senior Engineer, Big Data
Dunnhumby
02/2017 – 12/2018   *Gurugram, Haryana*

Role & Responsibilities
- Requirement Gathering, Analysis and designing technical Solutions. Do effort estimation and planning
- Migrate existing legacy solutions to Python/Pyspark
- Write tests and verify product capabilities
- Debug/troubleshoot the incidents & Implement Enhancements
- Provide training to new joiners

IT Analyst (Bigdata, Python, Shell)
Tata Consultancy Services.
08/2014 – 01/2017   *Gurugram, Haryana*

System Engineer (Shell, SQL, Python)
Tata Consultancy Services.
08/2012 – 08/2014   *Gurugram, Haryana*

Associate System Engineer (shell, SQL)
Tata Consultancy Services.
08/2010 – 08/2012   *Bangalore, Karnataka*

SKILLS, TOOLS & TECHNOLOGIES
Hadoop, **Python**, Impala, **Hive**, **Google Cloud**, Sqoop, **Spark**, Docker, **Airflow**, **SQL**, Grafana, Influx DB, Oozie, Shell Scripting, Redis, Oracle, Control-M, Make/JAM, ACME, Git, Azure

EDUCATION

B.Tech. (Computer Science and Engineering)
Cochin University (CUSAT), Kochi
08/2006 – 07/2010   *70 %*

Schooling
C.B.S.E, Delhi
1993 – 2005   *Bokaro, India*

CERTIFICATIONS

- *Microsoft Certified: Azure Fundamentals*
- *Cloudera Data Analyst, CCA 159 (license ID # 100-023-599)*
- *ITIL Foundation Exam, APMG In. (Credential # 02999923-01-HQYQ)*

Honours

- *On the Spot Award – Clients (Deutsche Bank & American Ex)*
- *Appreciation Certificate – Client (American Ex.)*
